

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CALCULATIONS
OF THE
PRICES OF SAWN WOOD.

BY
H. FRICH.

CALCULATIONS
OF THE
ENGLISH MEASURES AND PRICES
OF
SAWN WOOD,

SHOWING

1. The Reduction of Running Feet, English Measure of ordinary sizes to English Cubic Feet or Quarters, Feet and Pieces, and to St. Petersburg Standard Hundreds.
2. The Cost of the St. Petersburg Standard Hundred and of the English Cubic Feet.

BY
H. FRICH.

LONDON:

PRINTED BY NISSEN, PARKER & ARNOLD, 43, MARK LANE.

1872.

181. e 21.

PREFACE.

The object of these Tables is to facilitate the calculation of Sawn Wood Specifications and Invoices. They are constructed in harmony with the principle now generally adopted of calculating 165 cubic feet to the Standard. An extra page shows the reduction of these cubic feet into quarters, feet and pieces : these three latter measures are used by the Surrey Commercial Dock Company, and also in the retail trade.

PART I. Showing the reduction of the running feet, English measure of ordinary sizes, of Deals, Battens and Boards to English cubic feet from 1 to 165, and also to any number of these Standards from 1 to 150 of larger sizes of Sawn Wood, and from 1 to 60 or 100 Standards of the smaller sizes.

At the end of this Part is a Table showing the reduction of English cubic feet from 1 to 165 to quarters, feet and pieces.

PART II. *Table No. 1* shows the price per cubic foot from £10 per Standard to £1 6s 8d, the gradations being in Thirds, Sixths, Eighths and Twelfths of the £1 Sterling, commencing from the even Pound, thus showing any price where 6s 8d, 3s 4d, 2s 6d or 1s 8d is used as the increasing rate.

Table 2 shows the price from £9 18s 9d to £2 1s 3d, the gradations being in Eighths of the Pound Sterling,

commencing from $\frac{1}{16}$ ths price, or £9 18s 9d, thus showing any price where 1s 3d is used as the increasing rate.

Table 3 shows the price of any number of Standards at fractional parts of the pound, or at any number of pounds per Standard from £10 to £2.

Finally, is a Table showing the cost of any number of St. Petersburg Standards from 1 to 100 Standards, prices varying from £9 15s to £2 5s, the gradations being in Halves and Fourths of the Pound Sterling, and from £9 17s 6d to £2 2s 6d, the gradations being in Fourths of the Pound Sterling.

Part of the price calculations in this book appeared in print in July, 1869. As the number of persons interested in the calculations of Sawn Wood is small, only a limited number of copies have been printed.
